

Proc case provides high quality Oracle expertise to help develop OMERS' pension system

OMERS - Ontario Municipal Employees Retirement System

Client since 1999

Location: Toronto, Canada

Industry: Pension/Financial

Client Overview

OMERS is one of Canada's largest pension plans and provides pension services to over 370,000 active and retired members and about 900 employers. OMERS' highly skilled investment professionals manage over \$41 billion in net investment assets that generate the income necessary to pay pensions. About 70% of pension costs are paid for by investment returns.

Client Objectives

OMERS embarked on a major redevelopment of their pension administration systems, a new web presence to serve plan member and employers and an updated payroll system. They were looking to assemble an IT development team with high quality Oracle expertise as well as pension systems expertise that would augment the in-house staff.

Proc case Contribution

Proc case provided OMERS with a number of design and development resources with high end Oracle expertise, many also with pension administration systems expertise. Proc case resources blended with the OMERS team to complete their Pension administration.

Technology

Oracle database, Oracle Forms/Reports

Results

Proc case offers high quality resources to meet OMERS demanding needs. Proc case has developed a long term relationship with OMERS and continues to be a trusted supplier of high quality resources.
