

Proc case develops and hosts a job recruiting system for Government of Ontario

Ontario Government Ministry of Health and Long Term Care

Client since August 2005
Location: Toronto, Ontario, Canada
Industry: Government

Client Overview

The Ontario Government's Ministry of Health and Long Term Care (MOHLTC) is responsible for health care provision across Ontario.

The ministry is responsible for administering the health care system and providing services to the Ontario public through such programs as health insurance, drug benefits, assistive devices, care for the mentally ill, long-term care, home care, community and public health, and health promotion and disease prevention. It also regulates hospitals and nursing homes, operates psychiatric hospitals and medical laboratories, and coordinates emergency health services.

Client Objectives

MOHLTC needed to improve the hiring of mental health care professionals across Ontario. They tendered a request for a custom developed and hosted job recruiting application. The MOHLTC chose Proc case Consulting for this task in a competitive bidding process.

Proc case Contribution

Proc case had extensive experience in the development of web based job recruiting systems such as Workopolis and Brainhunter. Proc case developed a web based job recruiting application, customized to the Ministry's specific needs, called www.workinginmentalhealth.com.

Proc case hosts and supports this application on a long term contract with the MOHLTC. This site has significantly improved job recruitment in this critically important field of specialists.

Technology

Linux, PHP, MySQL

Results

By leveraging its technical and industry expertise, Proc case has developed and is hosting a leading edge job recruiting solution that enabled the MOHLTC to enhance hiring in this critically important field.
