Lev Moltyaner
Managing Partner
Procace Consulting Inc.

Re: Reference Letter for Procace Consulting Inc.

Procace Consulting provided Elk Island public Schools with a timely, professional and personalized service for approximately 5 years. Procace Consulting responded quickly to our changing needs and often met very tight timelines.

Procace was a quick study, learning the business rules of what made up an elementary, outcomes based school report card. The professional analysis, dedication and perseverance of the programming team made it possible to design the system in a 3 month period.

Procace Consulting were always easy to reach by phone or email and were always there to help with any technical or programming related problem. Lev Moltyaner played a key role in designing and supporting our system. His expertise in Oracle and systems analysis and design were very much appreciated and respected by our own programmers and staff.

Using Procace Consulting was a very positive experience.

Shelley Coons
